with registration.

Optional Accessories:
Mounting kits, gas adaptors & hoses,
canvas cover, stainless grill sections,
"Aussie Style" griddle pan

Rugged barbeque for any conditions! Manufactured from high-grade 20 gauge stainless steel in an octagonal shape, the Classic Sea-B-Que provides both strength and rigidity. Handles attached to the rollaway top allow for effortless opening and closing even when the barbecue is hot. Non-Stick porcelain coated grill sections are perfect for great meals and easy to clean. A Thermometer is included for grilling and baking use. The design prevents flame-out even in the windiest of conditions.

All SEA-B-QUE models are free standing but can be equipped with our rail mounts, rod-holder mount, taff rail mount and "Scotty" type socket mount kit. The grill is set up to use a disposable propane bottle and with a bbq adaptor hose can be used with a refillable propane tank. For those with low pressure gas installations, a low pressure adaptor valve kit is available and a Euro adaptor will allow for the use of "campinggaz" style canisters.

We stand behind our products! In addition to the one year warranty for the Sea-B-Que itself, there is also a three year warranty on the burner bar (with return of registration card or online activation).
